

BUSINESS OPPORTUNITIES AVAILABLE TO MFL

MANUFACTURING -

Urea

- Urea Plant [1475 MTPD capacity] - Feasibility of providing Neem / Zinc coating to Urea is under examination.

Complex Fertilizers

- Decision has already been taken to start production of NPK 17-17-17 / 20-20-0-13 in NPK 'C' Train by January 2011 [Tentative]. In the same way, Start-up of NPK 'B' Train / Setting up of NPK 'D' Train with higher capacity, will increase the Turnover & Profitability of the Company.

Ammonia

- In Ammonia Plant, if an Argon Recovery Unit is set up, Argon bottling can be done. This will result in generation of additional revenue.
- Setting up of an Ammonia Import Terminal at Ennore Port.
- Setting up of "FSRU" station at Ennore Port Terminal for importing Natural Gas for feedstock of Ammonia Plant etc.
- Setting up of Coal gasification facilities at MFL.

Own Production

- Urea	:	4.5 Lac MT
- NP and NPK Complex	:	8.0 Lac MT
- Biofertilizer	:	450 MT

TRADING & IMPORTS -

- Neem Pesticide	:	150 KL
- Organic Fertilizer	:	10000 MT
- DAP	:	3.0 Lac MT
- MOP	:	1.0 Lac MT
